

ECT

Electronic Compression Tester

This digital compression tester comes fully featured, including a backlit two-line LED display of force and length and load cell deflection compensation for accurate readings at all times. It has a rugged cast-aluminum and steel frame, a precision rack-and-pinion drive with adjustments for wear and convenient hand operation to apply force and adjust length. A standard length lock and mechanical overload stops protect the tester from damage.

Standard Features:

- Compression testing of force and length
- Tracking or peak modes (2,000 samples / sec)
- Load Cell and frame deflection compensation
- Mechanical and software overload protection
- Digital calibration and linearization
- Backlit digital LED display of force and length
- Wipe-clean embossed key faceplate
- Push-button force and length zeroing
- Length measurement in mm or in.
- Force measurement in lb, oz, kg or N

Options:

- 4" platforms (025-0000-0191-00)
- Single stop rod (025-0000-0293-00)
- Master calibrated springs
 - 100 lb (018-3000-0010-13)
 - 1,000 lb (018-3000-0010-15)
- High resolution upgrades
 - Force (050-1000-0012-00)
 - Length (050-1000-0013-00)
- NIST traceable calibration
- RS 232 and USB for data output

Max. Part Size with Standard 2" or Optional 4" Platforms

4" Platforms

Single Stop Rod

Overall tester dimensions:
8.875" W x 21.5" H x 11.5" D
