

FDHT 1500

Force Digital Hand Tester

The FDHT 1500 is Larson Systems' heavy-duty, hand-operated force-only tension and compression tester. It is equipped with a high-resolution force measuring system to display current or peak force and can be fitted to perform a variety of force tests. Built with a rugged cast-aluminum and steel frame in a rigid two column design, the FDHT has a precision rack-and-pinion drive with adjustments for wear and features convenient hand lever operation to apply force.

Standard Features:

- Compression and tension force testing
- Tracking or peak modes (2,000 samples / sec)
- Load cell and frame deflection compensation
- Mechanical and software overload protection
- Digital calibration and linearization
- Backlit digital LED display of force
- Wipe-clean embossed key faceplate
- Push-button force zeroing
- NIST traceable calibration
- Force measurement in lb, oz, kg or N
- Load cell mounts to base or upper platform
- Surface ground plates for great working surfaces
